Registration link: <https://tinyurl.com/mpm7vj2x>

Last Date of Registration : 13<sup>th</sup> December 2022

A Hands-On-Training on the “Patent Prior Art Search” is scheduled on 15<sup>th</sup> December 2022. This training session is being organized by the IPR Cell Gautam Buddha University.

**Who Should Attend:** Faculty members, Research Scholars and Final Year Dissertation Students of GBU

### **Why is it Important?**

Intellectual Property Rights (IPRs) are legal rights that protect creations or inventions resulting from intellectual activity in the industrial, scientific, literary or artistic fields. The most common IPRs include patents, copyrights, trademarks, designs, integrated circuit layout designs, and geographical indicators. Considering globalization, Intellectual property rights play a significant role in trade of every nation. IPR is one of the sources of security for intangible properties which are still open to the public and which can be quickly replicated by anyone. Throughout our economy, thousands of companies rely on the adequate protection of their patents, trademarks, and copyrights, while customers make use of IP to ensure that they purchase secure, assured goods.

The objectives of this Hands-on Training Session are:

1. Sensitize and create awareness regarding importance of Prior Art Search of IP before filing of any application so that proper IP can be protected.
2. When and How to do Prior Art Search?
3. Searching using different databases and platforms

Participants: Faculty members, Research Scholars and Final Year Dissertation Students of GBU
