

World Intellectual Property Day

Date: 26th April, 2023 Wednesday

Time: 11:00 am- 1:00 pm

Venue: Conference Room, School of Law Justice & Governance, Gautam
Buddha University

Speaker: Dr. Shaiwal Satyarthi, Associate Professor, Faculty of Law, University
of Delhi.

Gautam Buddha University is celebrating World IP day by organizing an invited talk on “Comcept, Scope and nature of Intellectual Property Right with special reference to contemporary issue”.

The lecture will be followed by a Quiz on “IPR Awareness”. The participants and winners of the Quiz will be provided certificates.

This lecture is being organized by the IPR Cell, Gautam Buddha University.

Who Should Attend: Undergraduate Students, Postgraduate Students, Research Scholars, and Faculty members.

Why is it Important?

Intellectual Property Rights (IPRs) are legal rights that protect creations or inventions resulting from intellectual activity in the industrial, scientific, literary or artistic fields. The most common IPRs include patents, copyrights, trademarks, designs, integrated circuit layout designs, and geographical indicators. Considering globalization, Intellectual property rights play a significant role in trade of every nation. IPR is one of the sources of security for intangible properties which are still open to the public and which can be quickly replicated by anyone. Throughout our economy, thousands of companies rely on the adequate protection of their patents, trademarks, and copyrights, while customers make use of IP to ensure that they purchase secure, assured goods.
