School of Humanities and Social Sciences
Gautam Buddha University, Greater Noida (U.P.)**

ABOUT GAUTAM BUDDHA UNIVERSITY

Gautam Buddha University, established by the Uttar Pradesh Act (9) of 2002, commenced its first academic session at its 511 acres lush green campus at Greater Noida in August 2008. The University envisions to become a world class centre for excellence in education with a special focus to serve the under privileged and economically challenged sections of the society. The campus is modeled as a fully residential educational campus in line with the best institutions of higher learning across the globe. The uniqueness of its reputation is acknowledged through the format, content and pedagogy of its programmes and their relevance to the society. The University is recognized by the University Grants Commission under UGC Act and is a member of the Association of Indian Universities.

ABOUT DEPARTMENT OF ECONOMICS, PLANNING AND DEVELOPMENT

The Department of Economics, Planning and Development was established in 2011 and recorded consistent improvement in its academic, research and placement performance. It offers BA (Hons.) and MA Degree Course in Economics, innovatively designed programs whose curricula content are constantly updated to meet the changing requirement of the industry and to meet the needs of major stakeholders. During study at the department, the students are encouraged to get hands-on experience in the industry through internship projects with reputed organizations. In their curriculum, they are encouraged to take up mini projects to supplement theoretical knowledge with practical experience. They also undertake projects benefiting local industries or dealing with local problems. These projects enable them to understand the relevance of working in a group and also help them to realize the finer aspects and importance of teamwork.

ABOUT THE CONFERENCE

India's struggle for freedom had a large element of economic thinking and social reform. Freedom was considered an indispensable means to overcome mass poverty, protect the farmers and artisans, create modern industry and to reconstruct the entire fabric of India's social and economic life. Economic reforms initiated in the nineteen nineties have had a much needed positive impact on the Indian economy. The resultant high growth trajectory into which the economy was drawn caught the attention of the rest of world and catapulted India into the league of promising emerging economies of the world and was being compared with economies like China. From 2008 onwards, like many other economies of the world, the Indian economy too, sucked into the quagmire of global recession. The difficult external situation which the economy has been facing for some time coupled with the weakening of its macroeconomic fundamentals have reflected in falling growth rates. High levels of domestic inflation, fiscal difficulties and increasing current account deficit have not only taken the rupee on a roller-coaster drive but have also contributed towards the ebbing of business sentiments. Inability to tackle the problems on priority and proactive basis has raised questions about equity, transparency, inclusiveness and sustainability of the growth model. In this context the conference invites original papers on "**Indian Economy-Achievements, Prospects and Challenges**". The papers should seek to identify, analyse specific challenges of the Indian economy and come out with appropriate solutions and strategies.

GUIDELINES FOR SUBMISSION OF ABSTRACTS / FULL PAPERS

The abstract/paper must abide by the following format
